

# “Protecting Our Forests for Climate, Wildlife, and People”

September 25, 2024  
Noon-1:00 p.m. Webinar

**Michael Kellett**, the co-founder and Executive Director of RESTORE: The North Woods, has over 35 years of experience in the land conservation movement. Previously, he was the Northeast Director and Michigan Representative of The Wilderness Society, where he helped to pass national forest wilderness and national recreation area legislation and developed a proposal for a Maine Woods National Reserve.

**Webinar Description:** We face a global emergency ---climate change, loss of biodiversity, and their harmful impacts on people. One of the most important strategies for addressing these crises is the protection of forests. But we continue to cut our forests down. We need to reduce logging and increase forest protection. There are many options available and there has never been a better time for action.

The webinar is sponsored by the Friends of White’s Woods from noon to 1 p.m., Wednesday, September 25, 2024. A question-and-answer period will follow the presentation.
